MEMORANDUM FOR: Mr. Robert M. Gates
Director, Office of Policy and Planning

FROM: Director of Central Intelligence

SUBJECT: American Radio Conference/World Administrative
Radio Conference

I talked to Senator Schmitt on the telephone on Friday and he strongly urged that we find out what the agenda is and what the stake is in the American Radio Conference soon to be held at Rio Region 2 of the World Administrative Radio Conference. He says we should look into the history of this conference, the role of the ITU and that we need to take an interest in those parts of the agenda which deal with the use of radio frequencies and the use of orbital positions. He says that for years we have been short-changed at these conferences. We have technicians going in to deal with the issues on a technical basis while other countries play them politically.
